

3rd I.CE.A. E-Newsletter (May 2023)

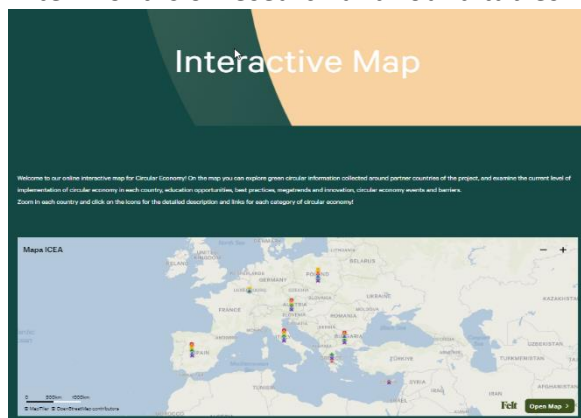

About the project

The “I.CE.A” project, short for “Investing on Circular Economy through Adults” aims to offer high quality learning and networking opportunities responding to the needs of adults wishing to dynamically engage in circular economy activities. The project will build a bridge amongst green entrepreneurs (mentors) and future green entrepreneurs (mentees). Social entrepreneurship signals the imperative to drive social change and the project aims to trigger and reinforce this change.

Latest Developments

The end of the third semester of the I.CE.A project finds the **Result 1: Interactive Map on Circular Economy** finalized and ready to be launched in all partners languages. After months of research and round tables with experts and entrepreneurs of circular

economy the interactive map will give access to Action Plans, Education Opportunities, Events, Best Practices, Innovations and Barriers that are relevant with the consortium partners of the project. The information and knowledge of this map will fuel the **Result 2** of the project which consists of **Workshops on Green Entrepreneurship** in every partner’s country.

Transnational Project Meetings Austria and Cyprus

For the implementation of the Interactive map and the Workshops , two Transnational Project Meetings took place. The first one in Vienna, Austria at 14-15 December 2022 , hosted by Die Berater .The second one in Nicosia, Cyprus at 22-23 March 2023 hosted by CSI CENTER FOR SOCIAL INNOVATION LTD. All partners came together to talk about the project management and implementation, and exchange thoughts and ideas about the project process. The implementation of the projects

tasks is the top priority of the consortium. They set the deadlines and the final details of the map and they agreed on the guidelines in which the Workshops will be based. Both the Interactive map and the Workshops will be completed by the end of May 2023.

Dissemination

Since October 2022, the project's website has been up and running, and it has been translated in all partners' national languages (Bulgarian, Greek, French, Spanish, Italian, Polish and German). For the past few months the partners are uploading news and articles about their actions Our Facebook and Instagram are active and posting material and makes the dissemination more efficient.

Next up...

The next transnational project meeting for I.CE.A project will take place in Rzeszow, Poland at September, hosted by DANMAR COMPUTERS SP ZOO. Until our next Meeting, the Consortium will make steps in organizing the **Result 3- the ECO-QR**.
